Selection and document notes

Coverage is selection guidance; results depend on the space and operating conditions.
Confirm suitability for the actual airflow and required scent intensity before ordering.
Other specifications are based on the SC02 V0 product sheet dated 10 July 2026.
Consumption values are the source sheet's references for its stated 4-hour timer condition; actual use depends on the selected level, operating schedule, fragrance and environment.
This product reference is not an operating manual. Request the current manual before use.
